## Professional summary

I have learned web development as Self-taught on different websites, doing free courses, researching and viewing some videos. I have +1 of experience and knowledge in technologies or tools like: JavaScript, Html, Css, React js, Node js, Tailwind, Git, Api rest.

I am a person who likes to explore new things and do my best in each of them, searching for the best way to solve any problem. I like to help people by contributing with my knowledge and keep learning from them about the world of development.

## Professional experience

As self-taught, I have made some projects where I implemented Api, different ways to better interact with the user so in UX and UI.

Making these projects I have learned different ways to solve errors and a better way at the moment to write code.

## Soft skills

- Design
- Team working
- Good attitude
- Pleasure to keep learning
